EC2 > Instances > i-05ba2cc7edc174a4e > Create image
Create image Info
An image (also referred to as an AMI) defines the programs and settings that are applied when you launch an EC2 instance. You can create an image from the configuration of an existing instance.
Image details
Instance ID
i-05ba2cc7edc174a4e (webserver)
Image name
webserver-ami
Maximum 127 characters. Can't be modified after creation.
Image description - optional
Image description
Maximum 255 characters
Boot mode override - optional
By default, the image inherits the boot mode of the source instance.
